

To all Fratres of the Societas Rosicruciana in Anglia

Further to the suggestion that Fratres should be encouraged to write papers for the eventual reward of a grade medal of the Order of Christian Rosencreutz, past papers which have been given to the Metropolitan College Study Group will be published on the SRIA website which is found on www.sria.info - your Golden Number, found on your Certificate will be needed for access

This is purely and simply to indicate to those contemplating writing a paper the sort of subjects which have been previously presented within the SRIA and also to provide interesting reading, of about thirty minutes duration, for every Frater who is inclined to log on to see what Fratres have presented in the past.

There is a wealth of such papers to choose from, of esoteric and exoteric subjects, but each one exploring a different facet of this intriguing world in which we live, its peoples, philosophies and ideals, and even if these papers do not inspire you to write a paper, it is to be hoped that you will enjoy reading them and perhaps learning something which interests you in the process.

If possible suitable papers from other study groups will also be published in order to present an overall picture of areas of study and contemplative thought which go to make up the vast area of interest and knowledge which is covered by the Christian Rosencreutz world philosophy.

May each and every one of you enjoy reading these papers and please remember, those Fratres whose study papers earn them the honour of receiving the prestigious Companion of Christian Rosencreutz medal will also have those papers published on the SRIA website.

Chris Harrington VIII

Director General of Studies
